Thank you for playing such an important role in raising awareness about bullying prevention. When we stand together, no one stands alone!

"It's time to take action. Teachers, parents, students, and adults throughout each community must work together to create a climate that doesn't accept bullying. When bullying is addressed, communities will see more students with higher self-esteem, better school attendance, less physical and mental stress, and better school performance."

—Julie Hertzog, Director of PACER's National Bullying Prevention Center
