

You Can't Take That Away From Me—Song lyrics

Everybody's so obsessed
With what to say and how to dress
And if they fit in with the right crowd

Painting on red lipstick smiles
Wearing all the latest styles
One day it's in and next day it's out

I can't keep up with all that stuff
But I don't think I'm missing much

I'm not just a pretty face
I've got something more to say
It doesn't matter what the mirror sees
How I look does not define
Who I am it's what's inside
I'll be anything I want to be
You can't take that away from me

I'm not perfect but I wouldn't wanna change

Cuz perfect is so boring anyway

I'm not just a pretty face
I've got something more to say
It doesn't matter what the mirror sees
How I look does not define
Who I am it's what's inside
I'll be anything I want to be

You can't take that away from

You can't take that away from me
You can't take that away from me
