Computer Skills and Resources to Close the Digital Divide

These free workshops are for parents who have children with disabilities and who are computer beginners or have limited access to technology. Come explore how computers and the Internet can benefit your child.

Computer and Assistive Technology Basics Tuesday, Dec. 1, 2009, 6 to 8 p.m.

Come learn the basic skills needed to use a computer and navigate the Internet. You'll also find out what assistive technology is, how it can benefit people with disabilities, and how you can have access to computers and the Internet for little or no money.

Free/Open Source Software and Internet Resources Tuesday, Dec. 8, 2009, 6 to 8 p.m.

Learn about the many free software and Internet resources available for writing, e-mailing, translating, sharing photos, and more. Discover where to find them and how to make them work for you.

How to Access, Download, and Play Free Digital Books for Children Tuesday, Dec. 15, 2009, 6 to 8 p.m.

The Internet offers a wealth of free books to help children read, learn, and grow. Come discover where to find them and how to share them.

Sponsored in part by the Minneapolis Foundation's Digital Inclusion Fund. Minneapolis residents who attend all three workshops will get a free one-year membership to the Simon Technology Center Lending Library.

Directions to PACER Center

From I-494 take the Normandale Boulevard exit south to 84th Street; turn left. Take the next left onto the frontage road. PACER Center is a one-story brick building immediately north of the bridge. Turn right into the parking lot. Enter on the north side of the building.
