

# Webinar: All About Apps for Education: Just the Apps and Nothing but the Apps

5/5/11

NOTE: The following is a list of apps for education gathered for the webinar presentation *All About Apps for Education: Just the Apps and Nothing but the Apps*. We gathered more apps than we will be able to present. The apps were selected from our personal favorites, from our work with assistive technology consultations involving apps for education, from top ten type lists created by other educators, and from parent and professional recommendation. The name for each app is as listed in the Apple iTunes Store to make finding them easier. Pricing given is current as of May 2011. The list is not exhaustive by any means.
