We have a communication device, now how can we use it?

Strategies for Augmentative and Alternative Communication Implementation

To register:

PACER Center
(952) 838-9000
PACER.org/workshops

* Also available via online streaming

Augmentative and alternative communication (AAC) tools can help individuals communicate with others. Once an AAC device is selected, the next step is learning how to use it. This workshop will explore how to use communication tools in daily life.

If an ASL interpreter is needed, contact PACERWorkshops@PACER.org or call (952) 838-9000 with 48 hrs. notice.
