Assistive Technology and Play in the Natural Environment

Tues., April 14, 2020
2:00 to 3:30 p.m.

PACER Center
8161 Normandale Blvd
Minneapolis, MN 55437

To register:
PACER Center
PACER.org/workshops
(952) 838-9000

*Also available via online streaming

Play is an essential part of a child's development. However, young children with disabilities often experience barriers to play. In this workshop, we will explore assistive technology tools and strategies that make play more accessible for young children with disabilities in their natural routines and environments.

If an ASL interpreter is needed, contact PACERWorkshops@PACER.org or call (952) 838-9000 with 48 hrs. notice.
